PROFILE

I am a dedicated Computer Science student with strong analytical and problem-solving skills, supported by internship experience in structured data handling, reliable application development, and workflow improvement. My background in data analysis, reporting, full stack development, and automation has strengthened my understanding of how technology enables modern banking operations. Alongside this, completing finance-oriented courses has improved my awareness of financial markets and decision-making. I bring accuracy, teamwork, clear communication, and disciplined documentation to every role, and I am eager to apply these strengths in the banking sector to support efficient operations and data-driven decisions.

EDUCATION

BTech	Mar Baselios College Of Engineering And Technology , Trivandrum, Kerala Computer Science and Engineering Honours in Machine Learning CGPA: 9.38/10.0	2022 – Present
12th	The School Of The Good Shepherd , Trivandrum, Kerala CBSE Result : 96.4%	2022

CERTIFICATES

Deep Learning – IIT Ropar (NPTEL, 12-week course)	Oct 2024
Python Programming for Web	Apr 2024
Java Programming	Apr 2024
Intro to Snowflake for Developers, Data Scientists, and Data Engineers	Jul 2025
Trading Basics – Indian School of Business (Coursera)	Jul 2023
Trading Algorithms – Indian School of Business (Coursera)	Oct 2023
Advanced Trading Algorithms – Indian School of Business (Coursera)	Oct 2023
Introduction to Banking (Coursera)	Nov 2025

SKILLS

Full Stack Development	● ● ● ● ●	Analytical Thinking	● ● ● ● ●
Snowflake	● ● ● ● ●	Problem Solving	● ● ● ● ●
Cloud Technologies (AWS Basics)	● ● ● ● ●	Banking Fundamentals	● ● ● ● ●
Data Engineering	● ● ● ● ●	Decision making	● ● ● ● ●
DBeaver	● ● ● ● ●	Data Handling & Reporting	● ● ● ● ●
Java Programming	● ● ● ● ●	Microsoft Excel	● ● ● ● ●
C Programming	● ● ● ● ●	SQL	● ● ● ● ●
Object-Oriented Programming (OOP)	● ● ● ● ●	Python	● ● ● ● ●
Bitbucket (Version Control)	● ● ● ● ●	AI and Machine Learning	● ● ● ● ●

EXPERIENCE

Enterprise Data Intern | Nissan Digital India LLP

India
July 2025 – Present

- Managed and validated structured datasets, ensuring high data accuracy and consistency for internal reporting.
- Supported the design and optimization of cloud-based workflows using AWS to improve reliability and operational efficiency.
- Worked with Snowflake to query, organize, and prepare datasets for analytics and decision-support requirements.
- Contributed to automation scripts that reduced manual workload and enhanced process turnaround time.
- Assisted in data quality checks, documentation, and maintaining audit-ready project reports. Increased user interactivity by 10%
- Collaborated with cross-functional teams, strengthening communication, coordination, and structured workflow practices.
- Gained practical exposure to data governance, workflow discipline, and digital transformation processes within enterprise environments.

Full Stack Developer Intern | Capabl – Elite Techno Groups

India
June 2024 – July 2024

- Developed a real-time weather information application focused on reliability, usability, and accurate data presentation.
- Built a modular backend structure that improved data flow, validation, and system responsiveness.
- Integrated third-party APIs for real-time data retrieval and ensured stable performance and consistent output.
- Completed all project milestones on time with strong documentation, teamwork, and structured development practices.

Java Intern | Acsia Technologies (OOPs Training Program)

India
Oct 2023

- Completed intensive training in core Object-Oriented Programming principles using Java.
- Gained hands-on experience in abstraction, inheritance, encapsulation, and polymorphism through structured exercises.
- Strengthened logical reasoning, analytical thinking, and disciplined programming foundations applicable in technical and operational roles.

ACHIEVEMENTS

- **Smart India Hackathon 2024 – Internal Hackathon Qualifier**, Mar Baselios College of Engineering and Technology, Thiruvananthapuram.
 - Qualified for the Internal Hackathon round by demonstrating strong analytical thinking, problem-solving, and teamwork.
 - Contributed to system design and rapid prototype development during the 2-day event, showcasing time-bound execution and structured decision-making.

CONFERENCES

- **IEEE Conference Publication:** Published a research paper on an AI-based career guidance framework in the **IEEE International Conference on Emerging Trends in Networking and Communication Technologies (NETACT 2025)**, Thiruvananthapuram, focusing on intelligent career guidance using resume parsing, skill extraction, and recommendation techniques.

- **Paper Publication:** Research work titled “*Comparative Analysis of Machine Learning Models for Currency and Object Identification*” has been published in the **IEEE International Conference on Smart and Intelligent Systems (SISCON 2025)**, held at Thiruvananthapuram.
- **Paper Presentation:** Presented an extended version of the research work with additional enhancements and system improvements at the **2nd International Conference on Artificial Intelligence and Machine Learning (ICAIML 2026)**. The paper is currently under publication in the **Springer Nature** conference proceedings.

Extra-Curricular Activities

- **APJAKTU A-Zone Cricket Tournament 2024-2025**
 - Represented **Mar Baselios College of Engineering and Technology (MBCET)** in the APJA KTU A-Zone Cricket Tournament.
- **APJAKTU A-Zone Cricket Championship 2023–24**
 - Represented **Mar Baselios College of Engineering and Technology (MBCET)** in the APJA KTU A-Zone Cricket Championship.
- **BBL Intra-College Cricket Tournament Achievements**
 - **BBL 2026 (2 January – 4 January 2026)**
 - * Captained a side in the tournament
 - **BBL 2024 (4 March – 31 March 2024)**
 - * became the **Best Bowler of the Tournament**
 - * achieved the **2nd Runner-Up** position
 - * Vice Captained the side
 - **BBL 2023 (31 March – 5 May 2023)**
 - * Participated in the intra-college cricket league.

PROJECTS

Course Recommendation System

- Built a system that analyzed user skills and matched them with suitable on-line courses, improving clarity in decision-making.
- Processed structured data and generated personalized, explainable recommendations based on skill relevance.
- **Tech Stack :** Python, Flask, Pandas, Data Processing, HTML/CSS, JavaScript

github.com/SABHILASH0804/Course-Recommend 

Advanced Career Guidance System (ACGS)

- Developed a platform that analyzed resumes to identify key skills and align them with appropriate job roles. Also incorporates a live mock interview system helping the users develop themselves according to the job role and interview type requirement.
- Designed structured workflows and clear visualizations to support user decision-making.
- **Tech Stack :** Node.js, Express.js, MySQL, HTML/CSS, JavaScript, Data Extraction

github.com/SABHILASH0804/ACGS 

Disaster Information Aggregation System

- Created an application that consolidated data from multiple sources to provide reliable weather and risk insights.

github.com/SABHILASH0804/DIAPS 

- Designed a user-friendly display ensuring clear, accurate, real-time information for decision-support.
- **Tech Stack :** HTML/CSS, JavaScript, API Integration, Data Visualization
